

Band

Band members rehearse and perform instrumental music together. Being a part of the LCHS band provides musicians a chance to demonstrate emotions, fine tune skills, and develop discipline, rigor, and persistence.

Chorus

In chorus, students develop strong vocal technique in a choral setting, work on performance etiquette, develop and refine music reading skills and musical expression, as well as sing a variety of choral songs from different cultures, in different languages

Use this guide to help you decide!

Class of 2026

Visual Arts

Students who enter the visual art world will explore a variety of artists, art processes and materials, including sketching, painting, printmaking, two- & three-dimensional design, and digital art.

Healthcare

Students participate in real-life scenarios to practice learned skills. They get to experience a day on the job when they go back for a full day of simulation with the nursing students as part of their clinical hours. Hands-on activities let students see the value in their learning while preparing to become healthcare professionals.

hosa future health professionals

Audio, Video Tech, and Film

Audio/Video Tech & Film (AVTF) students work with state of the art TV and Film production equipment. The pathway provides an overview of television production with an emphasis on the role of the television production team. Students learn the correct operation of studio and field production equipment as well as the history of television, scriptwriting, news reporting, safety and post-production editing.

Agriculture

Students use state-of-the-art technology, such as CNC Plasma Tables and Routers, to learn about mechanical careers and skills. In the greenhouse, they grow, market, and sell a variety of plants. Learning how plant growth and the industry work together, they are able to demonstrate their learning in over 30 different competitions throughout the year.

Business

Students gain business skills essentials for owning, managing, and/or working in a business. They are exposed to emerging technologies influencing businesses around the globe and learn leadership skills to make informed business decisions. Students learn and practice employability skills and research related careers.

Teaching as a Profession

Using current technologies & teaching/ learning strategies, students interpret the meaning of education in a diverse culture & examine the moral/ ethical responsibilities of teaching. Through project-based learning and leadership-development activities through Family, Career & Community Leaders of America (FCCLA), students gain a competitive edge for entry into the global world of education.
